Durch unvergleichliche Funktionalität und technische Lösungen garantiert OPEN maximale Nutzungsflexibilität für große öffentliche und Wohnumgebungen. OPEN eignet sich idealerweise für ultra-resistente Multifunktionsflächen oder Gartenausstattungen, es **kennt keine Grenzen der Anwendung und bietet raffinierte Materialinspirationen für avantgardistische Projekte.**

A través de funciones y soluciones técnicas incomparables, OPEN garantiza la máxima flexibilidad de uso para grandes espacios públicos y residenciales. OPEN se adapta perfectamente a espacios multifuncionales ultrarresistentes o a soluciones para jardines, **no conoce límites de aplicación y, gracias a materiales de lo más sofisticados, ofrece inspiración para proyectos de vanguardia.**

Grâce à des fonctionnalités et à des solutions techniques inégalées, OPEN garantit un maximum de flexibilité d'utilisation pour les grands espaces publics et les lieux d'habitation. OPEN est l'idéal des environnements polyvalents ayant des exigences de grande résistance ou comme solution d'aménagement paysager, **car il est sans limite d'application et qu'il offre aux projets d'avant-garde des matériaux d'une très grande élégance.**

Благодаря функциональности и передовым техническим решениям OPEN гарантирует максимальную гибкость в использовании как в обширных общественных зонах, так и в небольших и уютных жилых. OPEN идеально подходит для многофункциональных зон, требующих повышенной стойкости и ландшафтного дизайна, **почти не имеет ограничений и способен придавать проектным формам авангардный вид.**

OPEN®

A COMPLETE AND FLAWLESS SURFACE DESIGN.

Le superfici OPEN, sono complete di pezzi speciali e moduli flessibili pensati per rifinire con precisione le aree piscina, tutti i tipi di camminamenti, le terrazze e i giardini, zone carrabili e parcheggi. **La qualità dei materiali e le impareggiabili performance coordinano qualunque contesto outdoor.**

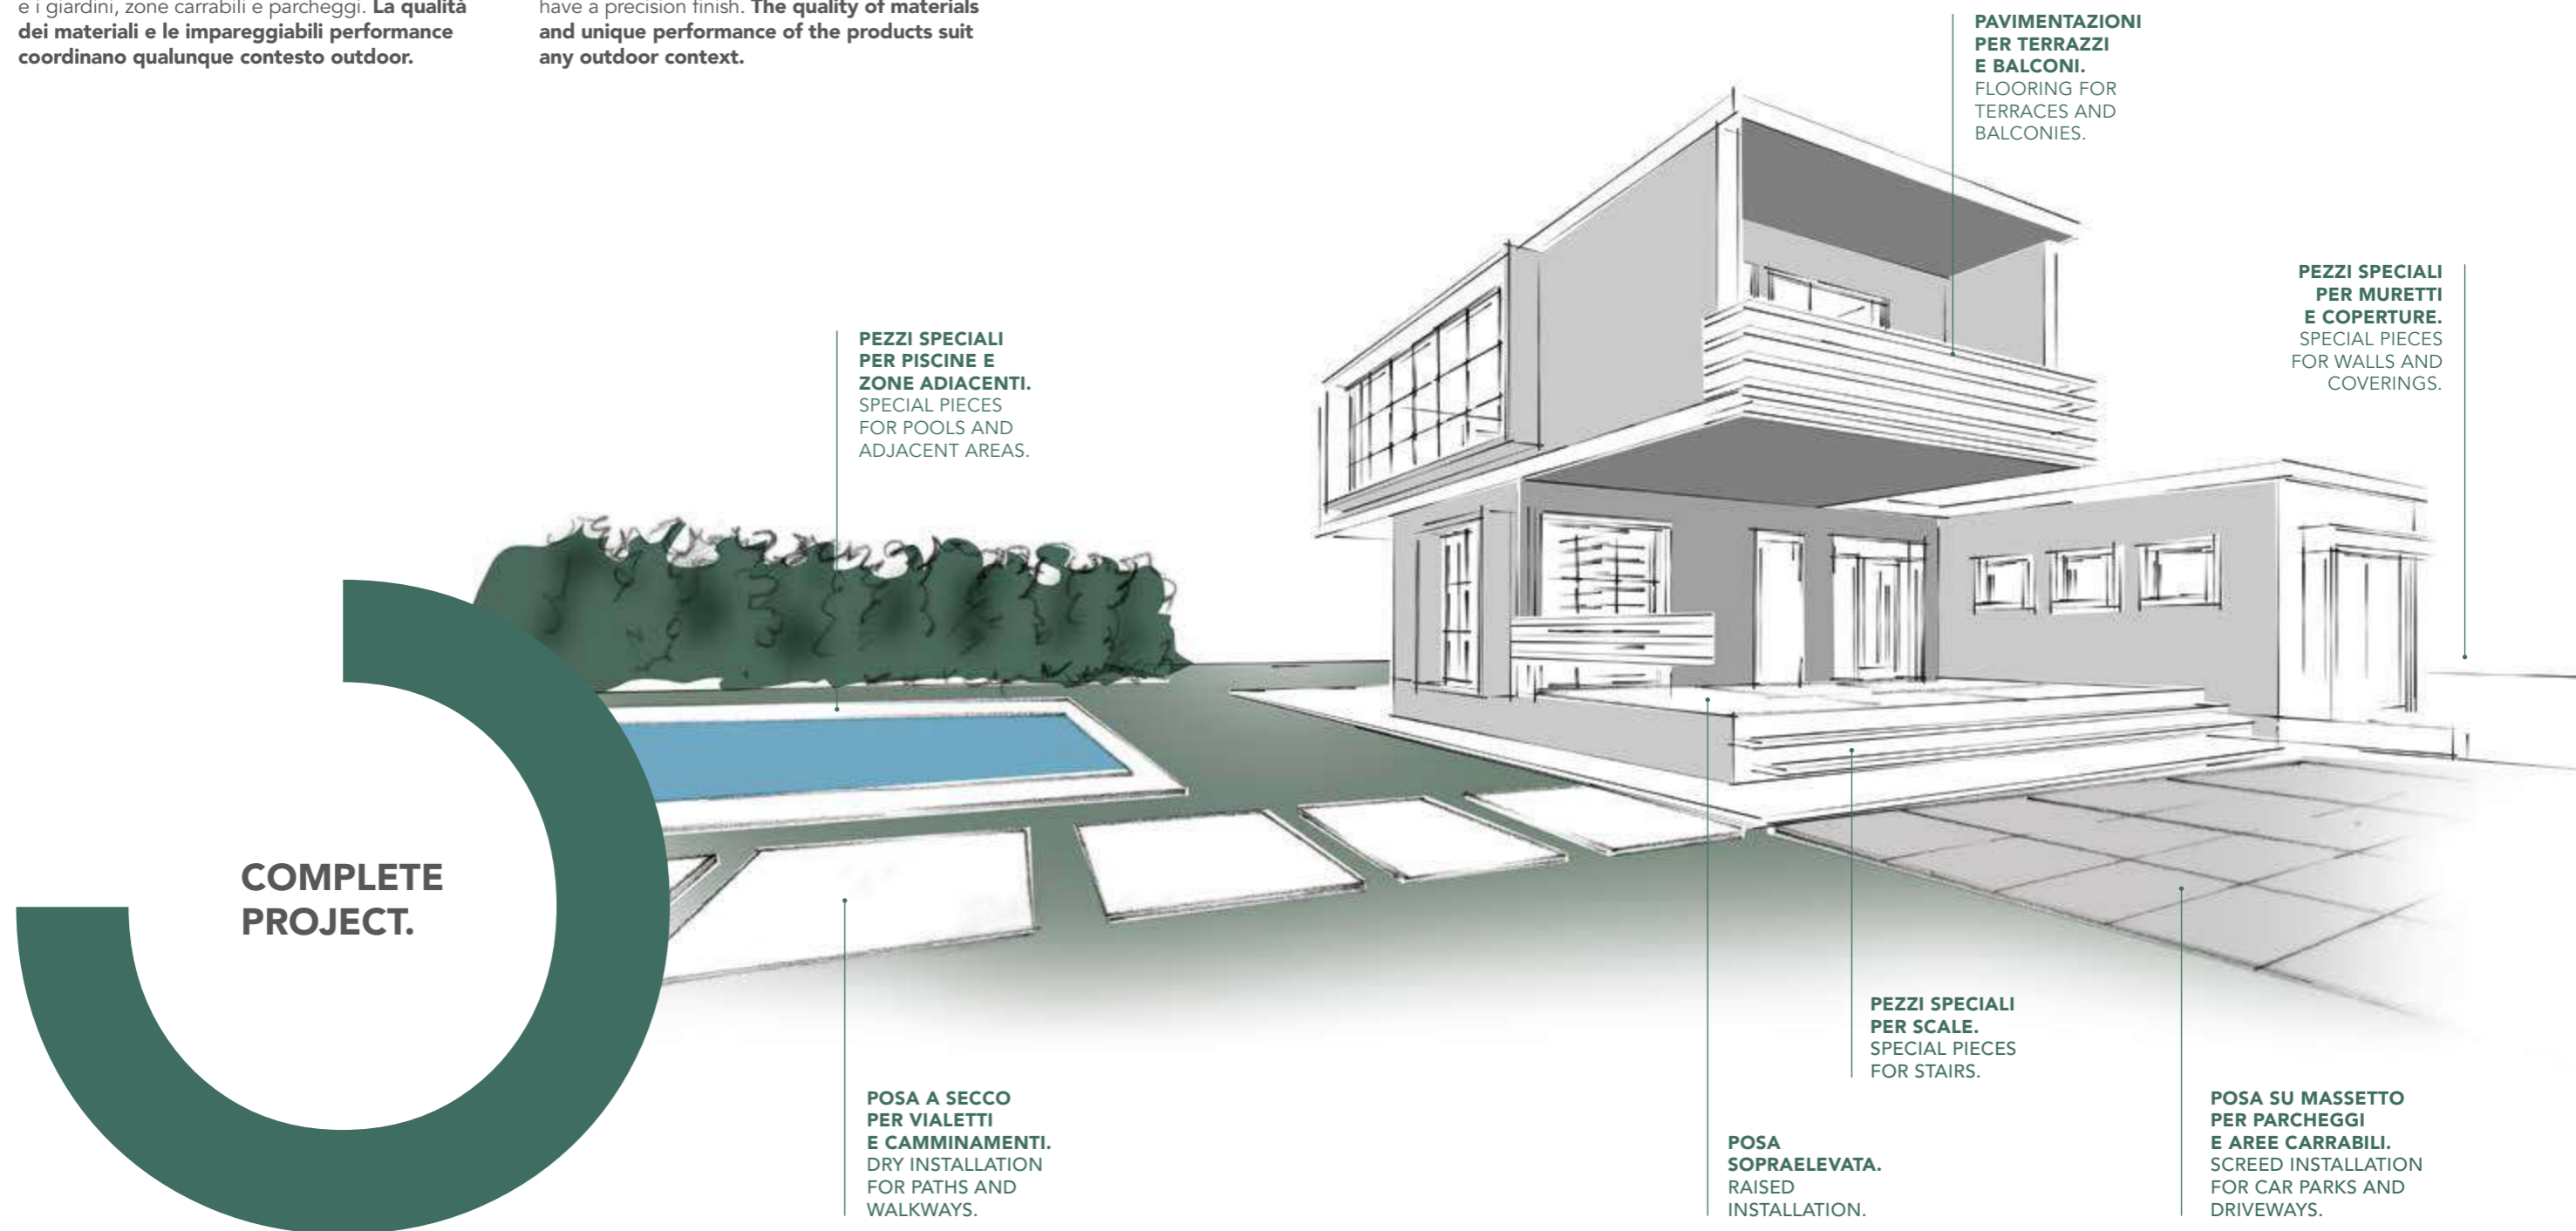

OPEN surfaces are enhanced with special pieces and flexible modules so that pool areas, walkways, terraces and gardens, driveways and car parks all have a precision finish. **The quality of materials and unique performance of the products suit any outdoor context.**

OPEN-Beläge sind mit Formteilen und flexiblen Modulen ausgestattet, die für die präzise Verlegung in Schwimmbadbereichen, allen Arten von Gehwegen, Terrassen und Gärten, Einfahrten und Parkplätzen entwickelt wurden. **Die Qualität der Materialien und die unvergleichliche Leistung harmonieren mit jedem Kontext im Freien.**

Les surfaces OPEN intègrent des pièces spéciales et des modules souples spécialement conçus pour les finitions de piscines, d'allées en tout genre, de terrasses, de jardins, de zones avec circulation de véhicules et de parkings. **Des matériaux de qualité et des performances inégalées qui s'adaptent à tous les contextes possibles en extérieur.**

Las superficies OPEN cuentan con piezas especiales y módulos flexibles diseñados para terminar con precisión las áreas de piscinas, todo tipo de caminos, terrazas y jardines, pasos para vehículos y zonas de estacionamiento. **La calidad de los materiales y las prestaciones incomparables encajan en cualquier ambiente al aire libre.**

Поверхности OPEN дополняются специальными изделиями и гибкими модулями предназначенными для упрощения отделки зон возле бассейнов, любых типов дорожек пешеходных зон и парковок. **Благодаря высокому качеству и превосходным характеристикам материалы коллекции OPEN способны идеально вписаться в любую среду.**

OPEN®

DESIGN THE PERFECT OUTDOOR SPACE WITH 5 TYPES OF INSTALLATION.

OPEN consente la rapida e veloce installazione a secco, e attraverso la tradizionale posa su massetto, completa le aree che richiedono performance estreme. OPEN è impareggiabile anche nei contesti sopraelevati, per coprire situazioni preesistenti o realizzare pavimentazioni dove alloggiare impianti tecnici.

OPEN allows for rapid dry installation, or traditional screed installation in areas that require extreme performance. OPEN is also unrivalled as a raised solution, covering pre-existing surfaces or creating flooring that can house technical systems.

**1 Posa su erba.
Laying on grass.**
Trockene Verlegung auf gras
Pose sur gazon
Colocación sobre hierba
укладка на траву

**2 Posa su ghiaia.
Laying on gravel.**

Pose surélevée
Colocación sobre elevada
Укладка в качестве фальш-пола

5 DIFFERENT
INSTALLATION
OPTIONS.

OPEN ermöglicht eine schnelle und einfache Trockenverlegung und durch die traditionelle Verlegung auf Unterbetonblöcken auch die Fertigstellung von Bereichen, die extreme Leistungen erfordern. OPEN ist auch im Falle einer hochgestockten Verlegung unvergleichlich, und ermöglicht bestehende Böden zu überdecken oder Raum für technische Bodeninstallationen zu schaffen.

OPEN est facile et rapide à poser à sec ou bien posé sur chape à la manière traditionnelle pour la réalisation de surfaces destinées à des performances particulièrement élevées. OPEN est incomparable également pour les surfaces surélevées, pour couvrir d'anciens carrelages ou pour la réalisation de surfaces où loger des équipements techniques.

OPEN permite una instalación en seco rápida y fácil, y mediante la tradicional colocación sobre solera, se adapta a las áreas que requieren un rendimiento superior. OPEN también ofrece un resultado incomparable en pavimentos elevados, para cubrir superficies preexistentes o para crear suelos donde albergar sistemas técnicos.

Керамогранит OPEN может быстро укладываться сухим способом или традиционно на стяжку в зонах, где требуется повышенная прочность покрытия. Керамогранит OPEN почти не имеет соперников в отделке возвышенных цоколей и площадок, покрытия существующих или устройстве новых фальш-полов с проложенными под ними сетями и коммуникациями.

UNBEATABLE QUALITY.

OPEN è il gres porcellanato tecnico ad alto spessore 2 cm che garantisce **superfici eccezionalmente resistenti.**

WOOD EFFECT

DESIGN FOR POOLS AND SURROUNDING AREAS.

Linguaggio estetico contemporaneo, soluzioni tecniche, funzionalità, sono i protagonisti di luoghi pubblici e privati dove design e stile interpretano l'*en plein air*.

Eine moderne Designsprache, technische Lösungen und Funktionalität sind die Hauptdarsteller öffentlicher und privater Umgebungen, an denen Architektur und Stil *en plein air* interpretiert werden.

Une esthétique contemporaine, des solutions techniques et des fonctionnalités qui sont les protagonistes de lieux publics et des habitations privées où design et style sont conjugués en version « *plein air* ».

Contemporary aesthetic language, technical solutions and functionality shine in public and private spaces where design and style interpret the *en plein air*.

El lenguaje estético moderno, las soluciones técnicas, la funcionalidad, son los protagonistas de los espacios públicos y privados donde el diseño y el estilo interpretan el *aire libre*.

Эстетичность, грамотные технические решения, функциональность сегодня являются неотъемлемыми факторами общественных зон, где дизайн и стиль акцентируют открытость.

HOTEL SEZZ - SAINTTROPEZ - FRANCE

SAFE AND STYLISH SURFACES.

OPEN resolve con sicurezza tutte le esigenze legate al mondo piscina. Le lastre monolitiche sono composte da sole materie prime naturali e sono altamente igieniche; la loro bassa porosità non trattiene umidità, batteri e odori. **Le superfici OPEN sono anallergiche e garantiscono massima sicurezza oltre la bellezza.**

OPEN löst sicher alle Bedürfnisse rund um die Welt der Schwimmbäder. Monolithische Platten werden nur aus natürlichen Rohstoffen hergestellt und sind sehr hygienisch; ihre geringe Porosität hält keine Feuchtigkeit, Bakterien und Gerüche zurück. **OPEN-Oberflächen sind hypoallergen und garantieren ein Höchstmaß an Sicherheit, ohne auf ästhetische Werte zu verzichten.**

OPEN répond en toute sécurité à toutes les exigences du monde des piscines. Les plaques monolithiques ne contiennent que des matières premières naturelles et sont hautement hygiéniques. Leur faible porosité ne retient pas l'humidité, ni les bactéries et les odeurs. **Les surfaces OPEN sont hypoallergéniques, assurent un maximum de sécurité et sont belles.**

OPEN safely addresses all needs relating to the pool world. The monolithic slabs comprise only natural raw materials and are extremely hygienic; their low porosity does not hold humidity, bacteria or odours. **OPEN surfaces are hypo-allergenic and ensure maximum safety as well as beauty.**

OPEN resuelve con seguridad todas las necesidades relacionadas con el mundo de las piscinas. Las placas monolíticas contienen únicamente materias primas naturales y son altamente higiénicas; su baja porosidad no retiene humedad, bacterias ni olores. **Las superficies OPEN son hipoalergénicas y garantizan la máxima seguridad más allá de su belleza.**

Керамогранит OPEN поможет с максимальной безопасностью решить любые проблемы, связанные с бассейнами. Монолитные плиты делаются исключительно из гигиеничного натурального сырья. Благодаря чрезвычайно низкой пористости они не пропускают воду и запахи, минимизируют размножение бактерий. **Керамогранит OPEN не вызывает аллергических реакций, отличается приятным внешним видом и абсолютно безопасен.**

OPEN extends the creativity applied to its porcelain stoneware **with material accessories that are big in personality**. Available in four sizes and all colours, the **Planter** elements **furnish outdoor environments with style, while ensuring stability and permanence**.

Available in:

RECTANGULAR PLANTER

60x120x60 cm
40x80x40 cm

SQUARE PLANTER

60x60x60 cm
40x40x40 cm

OPEN vervollständigt die auf Feinsteinzeug angewandte Kreativität **durch personalisierte Materialergänzungen**. Die in vier verschiedenen Formate und allen Farben erhältlichen Elemente **Plantergestalten Außenbereiche mit Stil und sind gleichzeitig robust und langlebig**.

OPEN complète la créativité appliquée au grès cérame **par des compléments de matières pleins de caractère**. Les éléments **Planter**, disponibles en quatre formats et dans toutes les couleurs, **aménagent l'extérieur avec style, sont solides et conservent leur aspect d'origine au fil du temps**.

OPEN completa la creatività applicata al gres porcelánico **a través de complementos materiales de una gran personalidad**. Los elementos **Planter**, disponibles en cuatro formatos y en todos los colores, **decoran el exterior con estilo, manteniendo su resistencia y inalterabilidad**.

Керамогранит OPEN расширяет горизонты креативности при помощи **изделий индивидуального дизайна**. Прочные и превосходно сохраняющие внешний вид вазоны **Planter** четырех типоразмеров и почти любых доступных цветов **стильно украсят любые наружные пространства**.

DESIGNER STAIRCASES.

Il progetto OPEN applica alle scale gli stessi principi di efficienza, funzionalità e bellezza riservati alle superfici planari. Che siano rampe autoportanti o sospese, i pezzi speciali con differenti profili e layout sono in grado di accogliere le esigenze creative di architetti e paesaggisti.

Mit dem Projekt OPEN gelten für Treppenprojekte die gleichen Prinzipien in Funktion von Effizienz, Funktionalität und Ästhetik wie für Flächen. Bei freitragenden oder schwebend gelagerten Rampen erfüllen Formteile mit unterschiedlichen Profilen und Layouts die kreativen Wünsche von Architekten und Städteplanern.

Le projet OPEN réserve aux escaliers les mêmes principes d'efficacité, de fonctionnalité et d'esthétique qu'aux surfaces planes. Qu'il s'agisse de rampes autoportantes ou suspendues, les pièces spéciales en différents profils et formes répondent à chaque exigence ou création des architectes et maîtres paysagers.

With the OPEN project, the same principles of efficiency, functionality and beauty reserved for flat surfaces are **also applied to stairs.**

Whether self-supporting ramps or suspended stairs, special pieces with different profiles and layouts are able to meet the creative needs of architects and landscape designers.

El proyecto OPEN aplica a las escaleras los mismos principios de eficiencia, funcionalidad y belleza que hasta ahora estaban reservados para las superficies planas. Ya sean rampas autoportantes o suspendidas, las piezas especiales con diferentes perfiles y diseños son capaces de adaptarse a las necesidades creativas de arquitectos y paisajistas.

В проекте OPEN для лестниц используются те же принципы эффективности, функциональности и красоты, что и для ровных поверхностей. Самонесущие консольные ступени разного профиля и формы идеально подойдут для креативных архитектурных и дизайнерских решений.

OPEN REWRITES OUTDOOR SURFACES.

Le collezioni OPEN sono scelte ogni giorno dai protagonisti del design internazionale perché sintetizzano qualità ceramica e perfezione estetica. **Il gres porcellanato OPEN è posizionato ai vertici tecnici dell'industria ceramica e garantisce massima affidabilità ed eccellenza Made in Italy.**

Tagtäglich entscheiden sich die Player des internationalen Designs für die Kollektionen von OPEN, die keramische Qualität und ästhetische Perfektion gewährleisten. **OPEN-Feinsteinzeug gliedert sich an der Spitze der Keramikindustrie ein und garantiert höchste Zuverlässigkeit und Exzellenz des Made in Italy.**

Les professionnels du design de niveau international choisissent les collections OPEN, parce qu'elles sont une synthèse exceptionnelle de qualité céramique et perfection esthétique. **Le grès cérame OPEN atteint le plus haut degré de performances techniques de l'industrie céramique, car il garantit un maximum de fiabilité et représente l'excellence Made in Italy.**

International designers opt for OPEN collections because they are synonymous with ceramic quality and aesthetic perfection. **OPEN porcelain stoneware is a first-rate technical product within the ceramic industry and guarantees maximum reliability and Made in Italy excellence.**

Cada día las colecciones OPEN son la elección de los protagonistas del diseño internacional porque sintetizan la calidad cerámica y la perfección estética. **El gres porcelánico OPEN se posiciona técnicamente en lo más alto de la industria cerámica, al garantizar la máxima fiabilidad y la excelencia del Made in Italy.**

Керамогранит OPEN ежедневно используются в работе ведущими мировыми дизайнерами благодаря высокому качеству керамики и превосходному внешнему виду. **Технически керамогранит OPEN является одним из самых передовых изделий керамической промышленности, отличается максимальной надежностью и красивым внешним видом, которые всегда были отличительными признаками продукции с клеймом «Сделано в Италии».**

AUTHENTICITY GUARANTEE.

Portiamo con orgoglio in tutto il mondo materiali che esprimono al meglio la cultura estetica, l'eccellenza stilistica e tecnica del Made in Italy: nel design accurato, nell'assortimento di colori e decorazioni, nell'impiego delle più avanzate tecnologie e materie prime. **Sosteniamo tutti i valori promossi dal codice etico di Confindustria Ceramica, dalla produzione 100% Made in Italy alla responsabilità sociale e ambientale.**

Around the world, we proudly promote materials that best express that Made in Italy aesthetic, style and technical excellence: in the precise design, in the assortment of colours and decorations, and in the use of the most advanced technologies and raw materials. **We support all those values promoted by the Confindustria Ceramica code of ethics, from 100% Italian production to social and environmental responsibility.**

OUR VALUES AND SUSTAINABILITY MODEL.

Lavoriamo per sviluppare un sistema di gestione ambientale che mette al centro la salvaguardia del pianeta e la salute delle persone. Il nostro grès porcellanato contribuisce ad un'edilizia di qualità attraverso prodotti durevoli formulati con materie prime naturali che non rilasciano sostanze nocive. **Siamo guidati dalla responsabilità sociale e orientiamo le nostre scelte industriali verso un modello sostenibile, efficace e coerente.**

We work towards developing an environmental management system which focuses on safeguarding our planet and people's health. Our porcelain stoneware contributes towards quality construction through durable products made with natural raw materials which do not release any harmful substances. **We are guided by our social responsibility and base our industrial decisions on a sustainable, efficient and consistent model.**

Wir arbeiten an der Entwicklung eines Umweltmanagementsystems, das den Schutz des Planeten und die Gesundheit der Menschen in den Mittelpunkt stellt. Unser Feinsteinzeug trägt durch langlebige Produkte aus natürlichen Rohstoffen, die keine Schadstoffe freisetzen, zu einem qualitativ hochwertigen Bauen bei. **Wir lassen uns von sozialer Verantwortung leiten und orientieren unsere industriellen Entscheidungen an einem nachhaltigen, effektiven und kohärenten Vorbild.**

Trabajamos para desarrollar un sistema de gestión medioambiental que hace hincapié en la protección del planeta y la salud de las personas. Nuestro grés porcelánico contribuye a una construcción de calidad mediante productos duraderos formulados con materias primas naturales que no liberan sustancias nocivas. **Nos guía la responsabilidad social y tomamos las decisiones industriales con vistas a un modelo sostenible, eficaz y coherente.**

Nous travaillons au développement d'un système de gestion de l'environnement qui se concentre sur la protection de notre planète et de la santé des personnes. Notre grès cérame contribue à la construction de bâtiments de qualité en utilisant des produits durables constitués de matières premières naturelles qui ne relâchent aucunes substances dangereuses. **C'est notre responsabilité sociale qui nous guide et qui décide de nos choix industriels pour un modèle durable, efficace et cohérent.**

Мы работаем над созданием системы экологического менеджмента, которая направлена на защиту планеты и здоровья людей. Наши керамограниты вносят свой вклад в повышение качества строительства благодаря своей прочности и использованию натурального сырья, которое не выделяет вредных веществ. **Мы подходим к собственному производству с должной социальной ответственностью и делаем выбор в пользу устойчивой, эффективной и последовательной модели.**

ECHTHEITSGARANTIE.

Wir sind stolz darauf, weltweit Materialien anzubieten, die die ästhetische Kultur, den Stil und die technische Hochwertigkeit des „Made in Italy“ am besten zum Ausdruck bringen: Im präzisen Design, in der Auswahl der Farben und Dekorationen, in der Verwendung der fortschrittlichsten Technologien und Rohstoffe. **Wir unterstützen alle Werte, die durch den Ethikkodex der Keramikindustrie gefördert werden, von der 100%igen Produktion in Italien bis zur sozialen und ökologischen Verantwortung.**

GARANTIE D'AUTHENTICITÉ.

Nous sommes fiers de fournir au monde entier des matériaux qui expriment au mieux la culture esthétique, l'excellence stylistique et technique du « Made in Italy » : dans le design soigné, dans l'assortiment des couleurs et des décorations, dans l'utilisation des technologies et des matières premières les plus avancées. **Nous défendons toutes les valeurs encouragées par le code éthique de Confindustria Ceramica, de la production 100 % italienne à la responsabilité sociale et environnementale.**

GARANTÍA DE AUTENTICIDAD.

Nos enorgullece distribuir por todo el mundo materiales que expresan de la mejor manera la cultura estética, la excelencia estilística y la técnica del Made in Italy: en su esmerado diseño, en la variedad de colores y decoraciones, y en el uso de las tecnologías y materias primas más avanzadas. **Defendemos todos los valores promovidos por el código ético de Confindustria Ceramica, desde la producción 100% Made in Italy hasta la responsabilidad social y medioambiental.**

ГАРАНТИЯ ПОДЛИННОСТИ.

Мы с гордостью представляем всему миру материалы, которые наилучшим образом воплощают в себе эстетическую культуру, стилистическое совершенство и технику «Сделано в Италии»: в тщательно продуманном дизайне, в гамме цветов и декоров, в использовании самых передовых технологий и сырьевых материалов. **Мы поддерживаем все ценности, изложенные в этическом кодексе Ассоциации производителей керамики - от производства 100% Сделано в Италии до социальной и экологической ответственности.**

Charm Experience

60x120 - 80x80

Ispirato a un apprezzato marmo balcanico, Ceppo Artistico presenta un fondo grigio neutro costellato di corpose inclusioni minerali.

La versione Open in 2 cm unisce caratteristiche di forza e resistenza all'estesa abbinabilità dell'affascinante pietra in gres porcellanato.

Ceppo Artistico inspiriert sich mit seinem neutralen grauen Untergrund und kräftigen Mineraleinschlüssen am beliebten Balkanmarmor. Die 2-cm-Version open verbindet die Eigenschaften von Festigkeit und Widerstandsfähigkeit mit der umfangreichen Kombinierbarkeit des faszinierenden Feinsteinzeugs.

Inspiré d'un marbre apprécié de la région des Balkans, Ceppo Artistico présente un fond gris neutre parsemé d'inclusions minérales massives. La version Open en 2 cm associe les caractéristiques de solidité et de résistance avec la grande capacité d'assortiment du fascinant grès cérame.

Ceppo Artistico draws inspiration from a popular Balkan marble, its neutral grey background is dotted with bold mineral inclusions. **The Open version in 2 cm combines the characteristics of strength and resistance with the extensive combinability of the fascinating porcelain stoneware.**

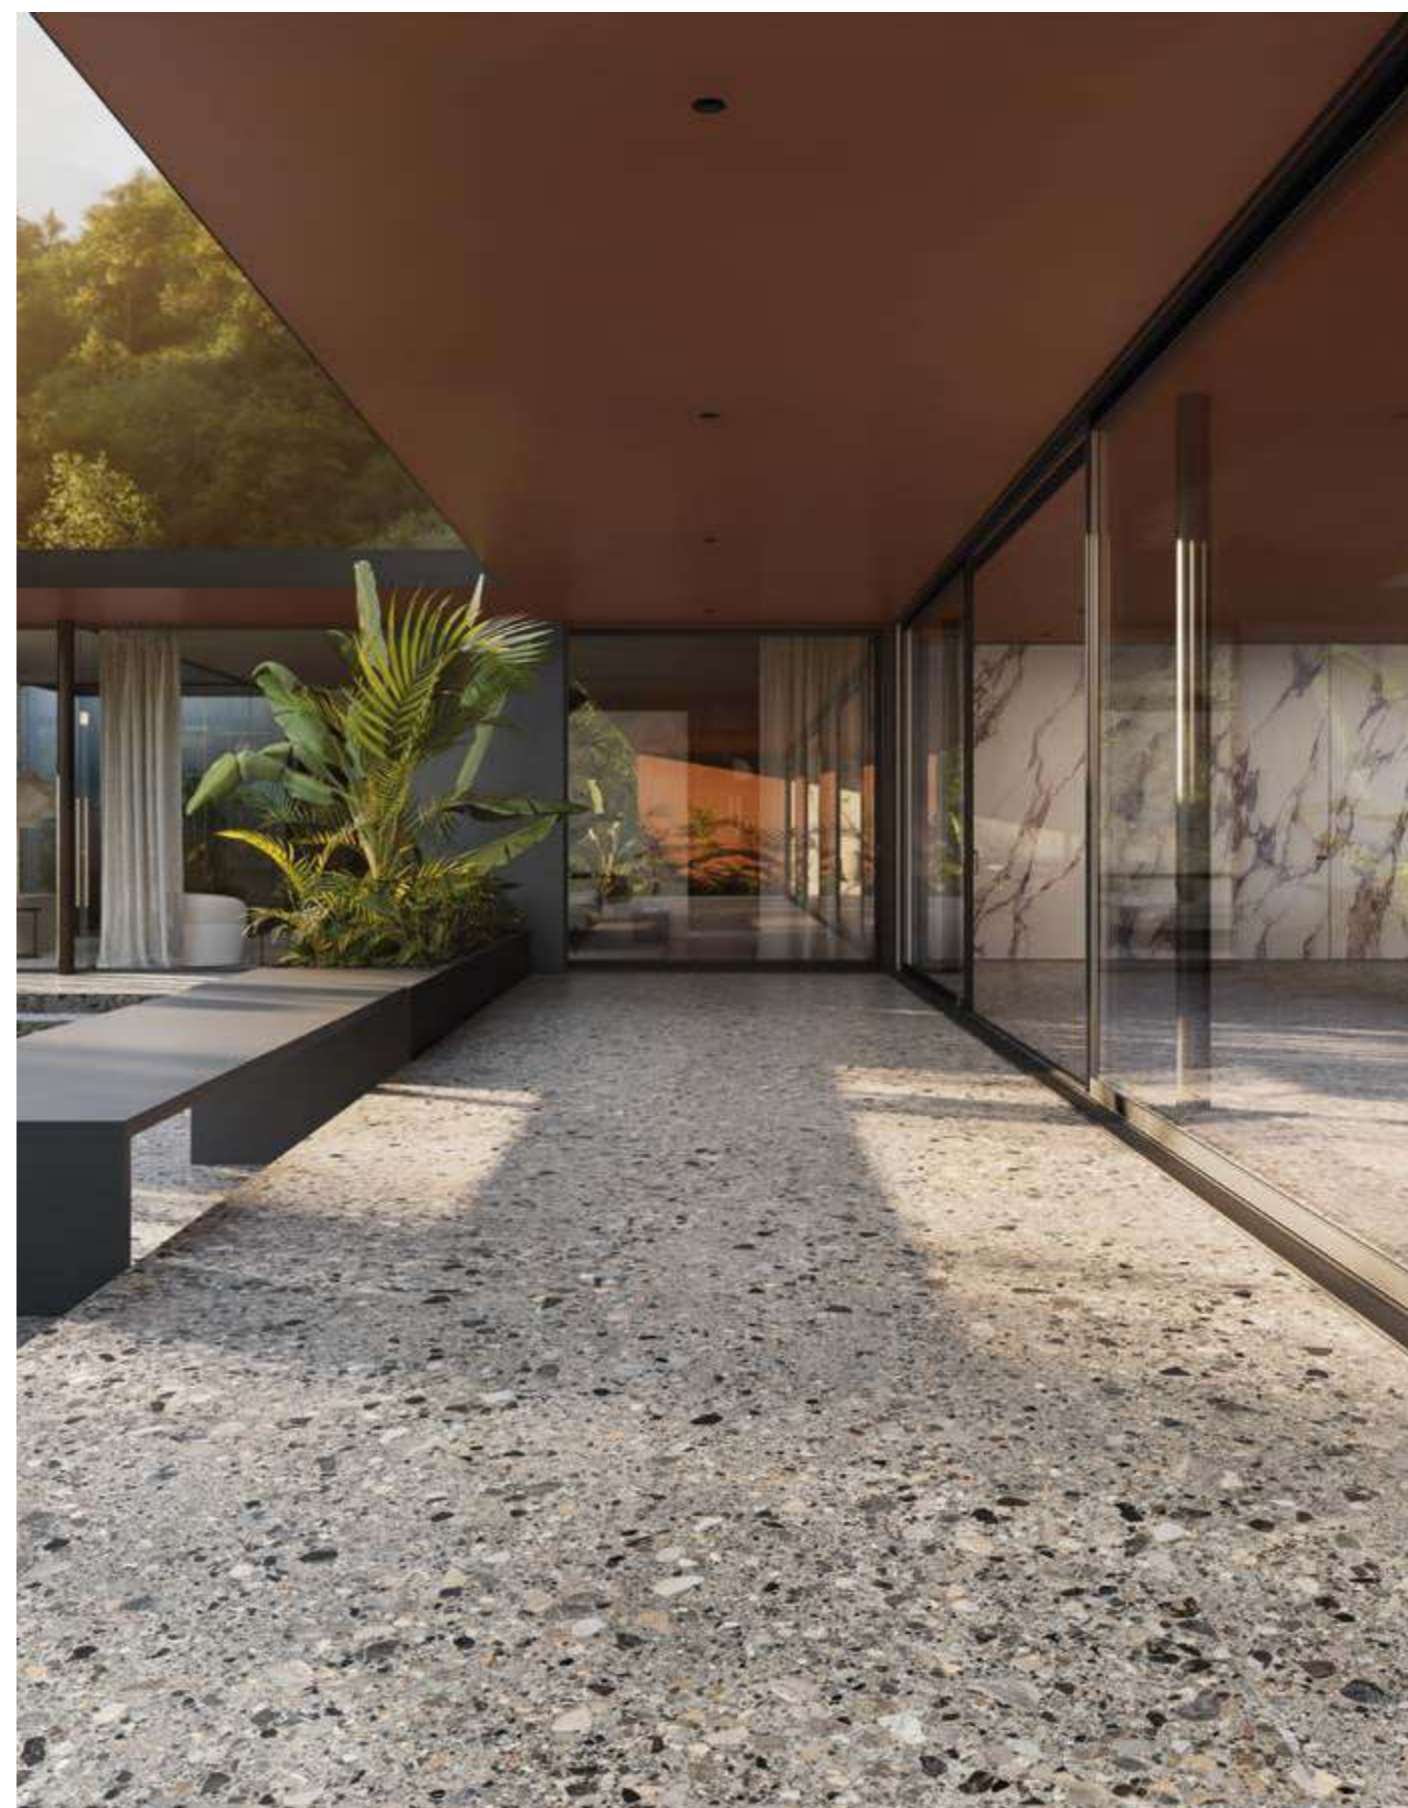

Inspirado en un preciado mármol balcánico, Ceppo Artistico tiene un fondo gris neutro salpicado de importantes inclusiones minerales. **La versión Open de 2 cm combina características de fuerza y resistencia con la gran adaptabilidad de la preciosa piedra de gres porcelánico.**

Плитка Ceppo Artistico, вдохновением для которой стал ценный балканский мрамор, имеет нейтральный серый фон с вкраплениями минералов. **Версия Open толщиной 2 см сочетает в керамограните прочность и стойкость с широкими возможностями комбинирования этого чарующего материала.**

ACCESSORIES: NUANCES ANTRACITE

MARBLE EFFECT

Nuances

60x120 - 80x80

Nuances nasce dall'iconico cemento, la sua estetica minimalista nasconde una complessa ricerca della materia e una calibrata essenzialità.

In abbinamento al gres monocromatico sono disponibili due superfici Coccio, le varianti decorative che arricchiscono i moduli con frammenti policromi.

Nuances entsteht aus dem ikonischen Zement, seine minimalistische Ästhetik verbirgt eine komplexe Erforschung des Materials und eine kalibrierte Essentialität. In Kombination mit dem einfarbigen Feinsteinzeug stehen zwei Coccio-Oberflächen zur Verfügung, die dekorativen Varianten, die die Module mit polychromen Fragmenten bereichern.

Nuances est issue du ciment iconique, son esthétique minimaliste cache une recherche complexe de la matière et une essentialité équilibrée. En combinaison avec le grès monochrome, deux surfaces Coccio sont disponibles, les variantes décoratives qui enrichissent les modules de fragments polychromes.

Nuances stems from iconic concrete, its minimalist styling conceals a complex material research and a calibrated elemental appeal.

In combination with the single-shade stoneware, two Coccio surfaces are available, the decorative variants that enrich the modules with multi-shade fragments.

Nuances surge del emblemático cemento, su estética minimalista oculta una compleja investigación del material y una sobriedad calibrada. Hay dos superficies Coccio combinadas con el gres monocromático, unas variantes decorativas que se suman a los módulos con fragmentos policromados.

Плитка Nuances рождается из такого культового материала, как бетон. За ее минималистской эстетикой стоят тщательные исследования материала и скрупулезная разработка концепции. Кроме однотонного керамогранита доступны два типа плитки Coccio, декоративные цветные компоненты, которые выгодно дополняют однотонные.

Terre

60x120 - 80x80

CONCRETE & METAL EFFECT

Terre interpreta la vera essenza della terra cruda e attraverso una selezione cromatica di pigmenti naturali, restituisce armonia e calore alle superfici. Il progetto avvolge gli spazi dell'abitare con tonalità che riflettono equilibrio, e modella il paesaggio esterno con atmosfere accoglienti e rilassanti.

Terre interprets the true essence of unfired earth, thanks to a chromatic selection of natural pigments, replenishing surfaces with harmony and warmth.

The design envelops the living spaces with shades that reflect balance, and shapes the outdoor landscape design with cosy, relaxing atmospheres.

Terre interpretiert die wahre Essenz der ungebrannten Erde durch eine chromatische Auswahl natürlicher Pigmente, die wieder Harmonie und Wärme in die Oberflächen bringt. Das Design umhüllt die Wohnräume mit Farbtönen, die das Gleichgewicht widerspiegeln, und gestaltet die Außenlandschaft mit gemütlichen, entspannenden Atmosphären.

Terre interprète la véritable essence de la terre crue à travers une sélection chromatique de pigments naturels et apporte de l'harmonie et de la chaleur aux surfaces. Le design enveloppe les espaces de vie avec des teintes qui reflètent l'équilibre et façonne le paysage extérieur avec des atmosphères chaleureuses et relaxantes.

Terre interpreta la auténtica esencia del barro sin cocer a través de una selección cromática de pigmentos naturales, aportando armonía y calidez a las superficies. El proyecto envuelve los espacios habitables con tonalidades que reflejan el equilibrio, y da forma al paisaje exterior con atmósferas acogedoras y relajantes.

Terre интерпретирует сущность глинистой земли и через цветовую подборку натуральных пигментов делает поверхности теплыми и гармоничными. Проект наполняет жилые помещения оттенками, воплощающими равновесие, и создает внешний пейзаж с гостеприимной и расслабляющей атмосферой.

Metaline

80x80 - 60x60

Metaline rappresenta al meglio l'iconica bellezza del metallo, oggi più che mai protagonista degli spazi outdoor. All'indiscussa eleganza, OPEN aggiunge tutti i vantaggi del gres porcellanato monolitico più evoluto: estrema compattezza, versatilità, facilità di posa e resistenza agli sbalzi termici.

Metaline in 20 mm Stärke für Außenbereiche ist das Ebenbild der ikonischen Schönheit von Metall, einem Material, das heute mehr denn je ein Protagonist der Outdoor-Bereiche ist. Seiner unbestrittenen Eleganz fügt Italgraniti alle Vorteile von hochentwickeltem monolithischem Feinsteinzeug hinzu: extreme Kompaktheit, Vielseitigkeit, leichte Verlegbarkeit und Temperaturwechselbeständigkeit.

En épaisseur de 20 mm pour les extérieurs, Metaline représente au mieux la beauté iconique du métal, aujourd'hui plus que jamais protagoniste des espaces extérieurs. À l'indiscutable élégance, Italgraniti ajoute tous les avantages du grès cérame monolithique le plus moderne : compact à l'extrême, flexible, facile à poser et résistant aux brusques variations de température.

Metaline is the finest representation of the iconic beauty of metal, now enjoying its greatest ever popularity for outdoor spaces. OPEN backs up superlative elegance with all the benefits of leading-edge monolithic porcelain stoneware: extreme compactness, versatility, easy installation and resistance to thermal shocks.

Metaline con grosor de 20 mm para exteriores representa completamente la belleza icónica del metal, y hoy, más que nunca, es protagonista de los espacios exteriores. A la indiscutible elegancia Italgraniti añade todas las ventajas del gres porcelánico monolítico más evolucionado: máxima compacidad, versatilidad, facilidad de colocación y resistencia a los choques térmicos.

Metaline толщиной 20 мм для внешнего покрытия представляет наилучшим образом изобразительную красоту металла, сегодня более чем когда-либо являющимся главным героем открытых пространств. Italgraniti добавляет к беспорной эlegантности все преимущества современного монолитного керамогранита: экстремальная компактность, универсальность, простота укладки и устойчивость к термическим перепадам.

SERVIZIO DI CONSULENZA PROGETTUALE. DESIGN CONSULTANCY SERVICE.

L'inserimento di un pavimento o rivestimento all'interno di un progetto di design è un processo che non si esaurisce con la sola selezione del materiale da posare, ma prevede una attenta analisi delle esigenze tecniche ed estetiche in funzione della destinazione d'uso. Grazie alla presenza di un team specializzato composto da architetti, ingegneri e tecnici commerciali, offriamo un servizio di consulenza progettuale focalizzato a fornire:

Design Solutions. Proposte di abbinamenti di prodotti di Italgraniti sulla base di disegni già forniti o capitolati, fino alla progettazione e renderizzazione di ambienti modello. La visualizzazione dello spazio rivestito è di supporto alla presentazione alla committenza e facilita la chiusura commerciale della commessa.

Technical solutions. Identificazione di soluzioni atte a risolvere o ad anticipare le principali problematiche riscontrabili in cantiere: computi metrici, suggerimenti di installazione, alternative a pose standard come pavimenti sopraelevati e facciate ventilate, adattamenti degli schemi di posa per ottimizzare fughe e sfridi.

The inclusion of floor tiling or wall tiling within a design project is a process that does not simply stop at merely selecting the material to lay, indeed it entails a careful analysis of the technical and styling requirements depending on the intended use. Thanks to an in-house specialised team of architects, engineers and sales technicians, we are in a position to offer a design consultancy serviced aimed at providing:

Design Solutions. Proposed combinations of Italgraniti products based on designs provided or on specifications, through to the designing and rendering of model settings. The viewing of the tiled space acts as support during the presentation to the customer and it helps finalise the job order.

Technical solutions. Identification of solutions devised to solve or anticipate the main issues which may arise on site: bill of quantities, installation suggestions, alternatives to standard laying solutions such as raised floors and ventilated façades, adapting laying patterns to optimise joints and trimmings.

PROJEKTBERATUNGSDIENST

Das Einbringen eines Boden- oder Wandbelags in ein Designprojekt ist ein Prozess, der nicht mit der bloßen Auswahl des zu verlegenden Materials endet, sondern eine sorgfältige Analyse der technischen und ästhetischen Bedürfnisse je nach Verwendungszweck erfordert. Durch die Unterstützung eines spezialisierten Teams von Architekten, Ingenieuren und Kaufleuten bieten wir eine auf die Erbringung von Dienstleistungen ausgerichtete Planungsberatung an:

Design Solutions. Kombinationsvorschläge von Italgraniti-Produkten auf der Grundlage bereits gelieferter Zeichnungen oder Spezifikationen, bis hin zum Design und Rendering von Modellumgebungen. Die Darstellung des verkleideten Raumes unterstützt die Präsentation vor dem Kunden und erleichtert den kommerziellen Abschluss des Auftrags.

Technical Solutions. Identifizierung von Vorschlägen zur Lösung oder zur Vorbeugung gegen die wichtigsten Probleme vor Ort: metrische Berechnungen, Installationsvorschläge, Alternativen zur Standardverlegung wie aufgestockte Böden und hinterlüftete Fassaden, Anpassungen der Verlegemuster zur Optimierung von Fugen und Ausschuss.

SERVICE DE CONSEILS EN CONCEPTION.

L'intégration d'un sol ou d'un revêtement dans un projet de design est un processus qui ne se limite pas uniquement à la sélection du matériau à poser : il inclut également une analyse approfondie des exigences techniques et esthétiques en fonction de la destination d'usage. Grâce à une équipe spécialisée composée d'architectes, d'ingénieurs et de techniciens commerciaux, nous offrons un service de conseils en conception destiné à fournir :

Solutions de design. Propositions d'associations de produits d'Italgraniti sur la base de dessins déjà fournis ou présents dans le cahier des charges, jusqu'à la conception et à la visualisation d'espaces-modèles. La visualisation de l'espace revêtu facilite la présentation au donneur d'ordre et la finalisation commerciale de la commande.

Solutions techniques. Identification de solutions visant à résoudre ou à anticiper les principales problématiques envisageables sur le chantier : métrés, suggestions d'installation, alternatives aux poses traditionnelles comme des sols surélevés et des bardages rapportés, adaptations des schémas de pose afin d'optimiser les joints et les chutes.

SERVICIO DE CONSULTORÍA DE PROYECTOS.

Incluir un suelo o revestimiento en un proyecto de diseño es un proceso que no se concluye con la selección del material a colocar, sino que engloba un análisis cuidadoso de los requisitos técnicos y estéticos en función del uso previsto. Gracias a la presencia de un equipo especializado compuesto por arquitectos, ingenieros y técnicos comerciales, ofrecemos un servicio de consultoría de proyectos centrado en proporcionar:

Soluciones de diseño. Propuestas de combinación de productos de Italgraniti en función de los planos ya proporcionados o de las especificaciones, hasta el diseño y la renderización de ambientes modelo. La visualización del espacio con los revestimientos apoya la presentación al cliente y facilita el cierre comercial del pedido.

Soluciones técnicas. Identificación de soluciones diseñadas para resolver o anticipar los principales problemas encontrados en la obra: cálculos métricos, sugerencias de instalación, alternativas a colocaciones estándar como pavimentos sobreelevados y fachadas ventiladas, adaptación de patrones de colocación para optimizar juntas y desperdicios.

ПРОЕКТНОЕ КОНСУЛЬТИРОВАНИЕ

Дизайн внутренних напольных и облицовочных покрытий в проекте является процессом, который не ограничивается только подбором используемых материалов, но и предусматривает тщательный анализ технических и эстетических характеристик в зависимости от предполагаемого назначения. Благодаря наличию специализированной команды, включающей архитекторов, инженеров, техников и специалистов по продажам, мы предлагаем консультационные услуги в следующих областях:

Дизайнерские решения. В зависимости от поставленных чертежей или технических условий до полного проектирования и представления проекта в виде цветной 3D-модели. Показ интерьера в готовом виде является прекрасной поддержкой при общении с заказчиком и облегчает коммерческому отделу задачу заключения договора.

Технические решения. Разработка решений для основных проблем, возникающих при отделке: подсчёт метража, разработка вариантов укладки, альтернативы стандартным решениям, например, фальшполы и вентилируемые фасады, оптимизация схем укладки для минимизации отходов и стыков.

POSA SU MASSETTO
LAYING ON SCREED

VERLEGUNG AUF ESTRICH.
POSE SUR CHAPE.
COLOCACIÓN SOBRE SOLERA.
НАКЛЕИВАНИЕ НА СТЯЖКУ.

Pulire la superficie esistente e verificare che il massetto sia eseguito ad opera d'arte: planare, asciutto, stagionato. Stendere la colla adesiva in maniera omogenea sulla superficie.

Clean the existing surface and check that the screed has been properly prepared: flat, dry and cured. Spread the adhesive evenly over the surface.

Die vorhandene Oberfläche säubern und überprüfen, dass der Estrich fachgerecht gefertigt ist: Er muss eben, trocken und belegreif sein. Den Kleber gleichmäßig auf der Oberfläche ausbreiten.

Nettoyer la surface existante et s'assurer que la chape est réalisée dans les règles de l'art : parfaitement plate et sèche. Étaler la colle de manière homogène sur la surface.

Limpiar la superficie existente y comprobar que la solera esté perfectamente realizada: planicidad, secado y fraguado. Extender el adhesivo de forma homogénea sobre la superficie.

Очистите уже существующую поверхность и убедитесь, что стяжка качественно выполнена: она должна быть ровной, сухой и выдержанной. Равномерно нанесите клей на поверхность.

Posizionare le lastre e battere leggermente con la mazzetta di gomma per permettere la fuoriuscita dell'aria e garantire perfetta aderenza. Inserire nelle fughe i distanziatori di 4/5 mm.

Put the slabs in place and tap down gently with a rubber hammer to drive out the air and ensure perfect bonding. Fit the 4/5 mm spacers into the joints.

Die Platten aufsetzen und leicht mit einem Gummihammer abklopfen, damit unter den Platten vorhandene Luft austreten kann und ein perfektes Anhaften gewährleistet ist. 4/5 mm breite Abstandhalter in den Fugen einsetzen.

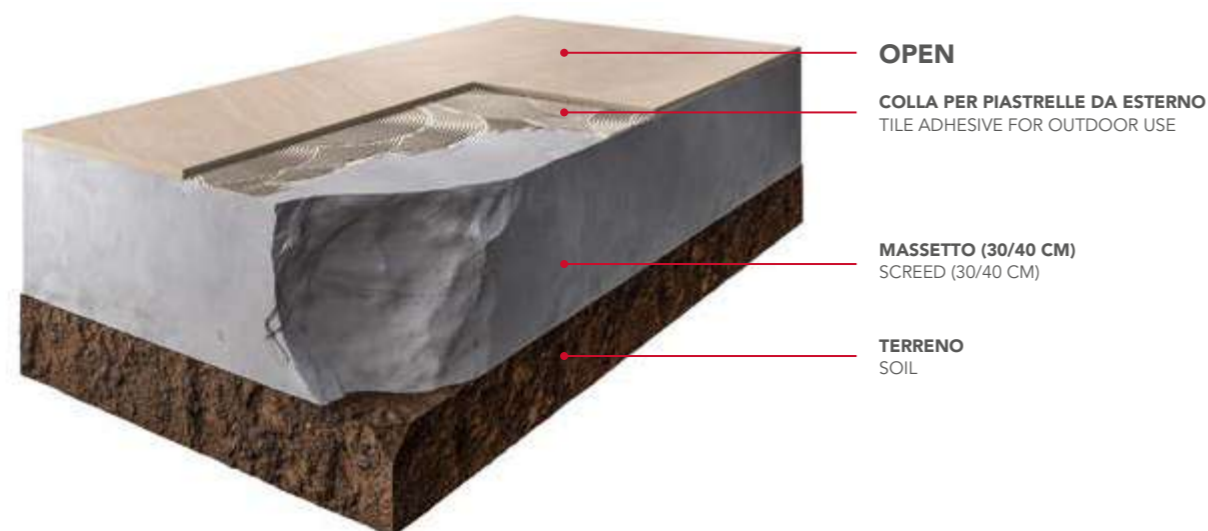

Positionner les dalles et battre légèrement à l'aide d'un maillet en caoutchouc pour chasser l'air et garantir une parfaite adhérence. Placer dans les joints les espaceurs de 4/5 mm.

Colocar las baldosas y golpear ligeramente con la maza de goma para permitir que salga el aire y garantizar una adherencia perfecta. Colocar separadores de 4/5 mm en las juntas.

Уложите плиты и слегка прибейте резиновой киянкой для выпуска воздуха и обеспечения безупречного прилегания. Вставьте в межплиточные швы разделительные крестики толщиной 4-5 мм.

STRATIGRAFIA SUGGERITA
SUGGESTED STRATIGRAPHY

Una volta asciutagasi la colla, rimuovere i distanziatori, stuccare le fughe ed eliminare i residui con un'attenta pulizia.

Once the glue has dried, remove the spacers, grout the joints and clean thoroughly to remove any residues.

Nachdem der Kleber getrocknet ist, die Abstandhalter entfernen, die Fugen mit Fugenmörtel ausfügen und die Rückstände durch eine sorgfältige Reinigung entfernen.

Une fois la colle sèche, retirer les espaceurs, appliquer le produit de jointoiement et en éliminer les résidus en procédant à un soigneux nettoyage.

Cuando el adhesivo esté seco, retirar los separadores y sellar las juntas, eliminando los restos de sellador con una limpieza cuidadosa.

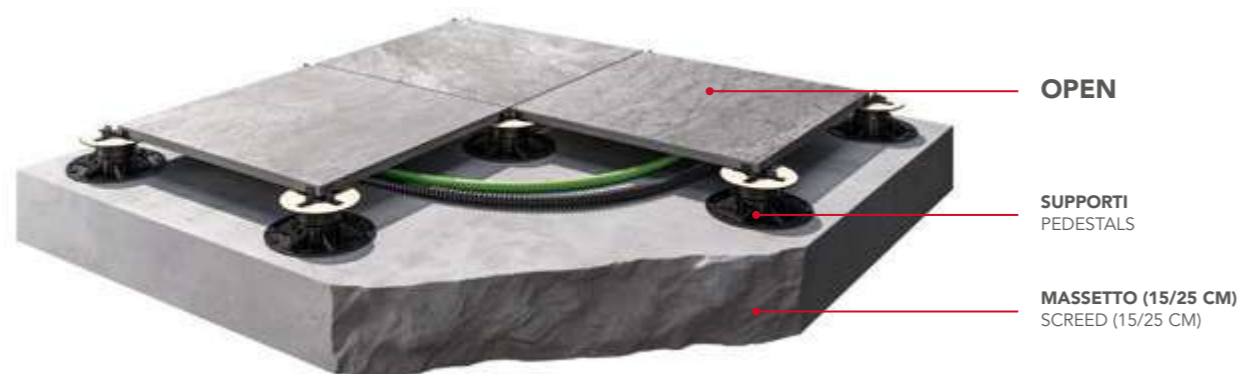

После высыхания клея удалите разделительные крестики, заполните швы и тщательно очистите для удаления остатков затирки.

POSA SOPRAELEVATA
LAYING AS RAISED PAVING

TROCKENE VERLEGUNG AUF STÜTZEN.
POSE SURÉLEVÉE.
COLOCACIÓN SOBREELEVADA.
УКЛАДКА В КАЧЕСТВЕ ФАЛЬШ-ПОЛА.

STRATIGRAFIA SUGGERITA
SUGGESTED STRATIGRAPHY

Pulire la superficie esistente e verificare la planarità del massetto per identificare il giusto supporto da utilizzare. Il massetto deve essere asciutto e stagionato. Preparare i supporti selezionati, tagliando a misura i supporti perimetrali ed eliminando le alette superflue.

Clean the existing surface and check that the screed is level to select the right type of pedestal. The screed must be dry and cured. Prepare the chosen pedestals, cutting the ones around the edge to size and removing any unwanted wings.

Die vorhandene Oberfläche säubern und den Estrich auf Ebenheit prüfen, um zu bestimmen, welche Stützen verwendet werden müssen. Der Estrich muss trocken und belegreif sein. Die gewählten Stützen vorbereiten, die Randstützen auf das richtige Maß zuschneiden und die überflüssigen Teile entfernen.

Nettoyer la surface existante et s'assurer de la planéité de la chape pour établir le bon support à utiliser. La chape doit être parfaitement sèche. Préparer les supports sélectionnés en coupant à la mesure nécessaire les supports de pourtour et en éliminant les ailettes superflues.

Limpia la superficie existente y comprobar la planicidad de la solera para elegir el soporte más adecuado que se debe utilizar. La solera debe estar seca y haber completado su fraguado. Preparar los soportes seleccionados, cortando a medida los soportes perimetrales y eliminando las aletas sobrantes.

Очистите уже существующую поверхность и проверьте плоскость стяжки для выбора необходимой опоры. Стяжка должна быть сухой и выдержанной. Подготовьте выбранные опоры, отрезав по размеру опоры по периметру и удалив лишние распорки.

Predisporre sulla base dello schema di posa il reticolo dei supporti, partendo da quelli perimetrali. Appoggiare le clip bordo piastrella di protezione sui supporti a contatto con pareti.

Arrange the grid of pedestals in accordance with the laying diagram, starting with those around the edge. Fit the protective tile edge clips on the pedestals against any walls.

Das Stützenschema auf dem Verlegungsuntergrund anbringen und dabei mit den Randstützen beginnen. Die Schutzklammern der Fliesenränder auf alle Stützen setzen, die mit Wänden in Berührung stehen.

Sur la base du schéma de pose, positionner les supports en commençant par le pourtour. Poser le clip de protection de bord du carreau sur les supports au contact du mur.

Colocar la retícula de soportes siguiendo el diseño de colocación, empezando por los perimetrales. Colocar los clips de protección de borde de baldosa en los soportes que están en contacto con la pared.

В соответствии со схемой укладки расположите опоры, начиная с периметра. Установите защитные фиксаторы кромки на опоры, контактирующие со стенами.

Posizionare a secco le lastre sui supporti. Aggiungere un supporto al centro della lastra, eliminando le alette distanziatrici. Verificare sistematicamente la planarità e regolare le altezze dei supporti con l'apposita chiave di regolazione per compensare eventuali irregolarità del sottofondo. Si suggerisce di prevedere idonee ed opportune pendenze al fine di ridurre il rischio di ristagni d'acqua.

Lay the slabs on the pedestals dry. Add a pedestal in the middle of the slab, removing the spacer wings. Systematically check the flatness and adjust the heights of the pedestals with the adjuster key to compensate for any unevenness in the substrate. A little slope of the substrate is always recommended in order to prevent water stagnation underneath the surface.

Die Platten trocken auf den Stützen positionieren. Eine Stütze an der Plattenmitte hinzufügen und die Abstandhalteflügel beseitigen. Die Ebenheit systematisch überprüfen und die Höhen der Stützen mit dem entsprechenden Einstellschlüssel regeln, um eventuelle Unregelmäßigkeiten des Untergrundes auszugleichen. Bitte das entsprechende Gefälle berücksichtigen um Staunässe zu vermeiden.

Poser à sec les dalles sur les supports. Ajouter un support au centre de la dalle, en éliminant les ailettes d'espacement. Bien contrôler la planéité et régler la hauteur des supports à l'aide de la clé de réglage prévue à cet effet pour compenser les éventuelles irrégularités du fond. Nous préconisons de prévoir une pente adaptée pour réduire le risque de rétention d'eau en périphérie.

Colocar las baldosas en seco sobre los soportes. Añadir un soporte en el centro de la baldosa eliminando las aletas distanciatoras. Comprobar sistemáticamente la planicidad y regular la altura de cada soporte con la llave especial de regulación para compensar eventuales irregularidades del soporte. Recomendamos verificar y adecuar el nivel de la superficie para evitar el riesgo de estancamiento de agua.

Установите плиты на опоры всухую, добавьте опору в центре плиты, удалив дистанционные распорки. Постоянно проверяйте плоскость и регулируйте высоту опор при помощи соответствующего регулировочного ключа для компенсации возможных неровностей основы. Предполагается предусмотреть подходящие и соответствующие уклоны, чтобы снизить риск застоя воды.

POSA SOPRAELEVATA: SUPPORTI RAISED LAYING: PEDESTALS

- Tre tipologie di supporti in polipropilene riciclabile, resistente agli agenti atmosferici.
- Le speciali testate con alette distanziatrici lasciano una fuga di 3-4 mm, che consente il drenaggio dell'acqua piovana.
- Le lastre removibili creano un'intercapedine dove è possibile alloggiare cavi e tubature. Il sistema favorisce un migliore isolamento termico e acustico.

TROCKENE VERLEGUNG: STÜTZEN.

- Drei verschiedene Stützen aus witterungsbeständigem recycelbarem Polyäthylen.
- Die speziellen Kopfteile mit Distanzlügel lassen eine 3-4 mm breite Fuge für die Regenwasserdrainage.
- Die entfernbaren Platten bilden einen Zwischenraum für die Aufnahme von Kabeln und Leitungen. Das System ermöglicht eine bessere Wärme- und Schallsisolierung.

POSE SURÉLEVÉE : SUPPORTS.

- Trois types de support en polypropylène recyclable résistant aux intempéries.
- Les têtes spéciales à ailettes d'espacement créent un joint de 3-4 mm qui permet le drainage des eaux de pluie.
- Les dalles amovibles créent un vide technique dans lequel il est possible de faire passer des câbles et des tuyaux. Le système contribue à une meilleure isolation thermique et acoustique.

- Three types of weather-proof recyclable polypropylene pedestals.
- The special heads with spacer fins leave a joint of 3-4 mm for rainwater drainage.
- The removable slabs create a cavity in which cables and pipes can be laid. The system provides improved heat insulation and soundproofing.

COLOCACIÓN SOBREELEVADA: SOPORTES.

- Tres tipos de soportes de polipropileno reciclable, resistente a los agentes atmosféricos.
- Los cabezales especiales con aletas separadoras dejan una junta de 3-4 mm, que permite el drenaje del agua de lluvia.
- Las placas extraíbles crean una cámara de aire donde se pueden albergar cables y tuberías. El sistema favorece un mejor aislamiento térmico y acústico.

УКЛАДКА ФАЛЬШПОЛОВ: ОПОРЫ.

- Три типа опор из рекуперированного полипропилена, устойчивого атмосферным воздействиям.
- Специальные головки с дистанционными распорками для шва 3-4 мм, для обеспечения дренажа дождевой воды.
- Съёмные плиты создают пространства, в которых можно располагать трубы и проводку. Система обеспечивает термическую и акустическую изоляцию.

SUPPORTO FISSO FIXED PEDESTAL

- Conveniente e rapido da installare, è utilizzabile solo con sottofondo planare e regolare.
- Disponibile in tre altezze: 12 mm / 15 mm / 20 mm
- Disco livellatore con spessore 3 mm per piccoli aggiustamenti, inseribile sopra o sotto al supporto.

FESTSTEHENDE STÜTZE.

- Vorteilhaft und schnell zu installieren und nur auf ebenem und regelmäßigem Untergrund verwendbar.
- In drei Höhen verfügbar: 12 mm / 15 mm / 20 mm.
- 3 mm dicke Nivellierungsscheibe für geringfügige Berichtigungen zum Einlegen auf und unter die Stütze.

SUPPORT FIXE.

- Pratique et facile à installer, il est utilisable uniquement sur un fond plat et régulier.
- Disponible dans trois hauteurs: 12 mm / 15 mm / 20 mm.
- Disque de nivellement de 3 mm d'épaisseur pour les petits ajustements, utilisable sur ou sous le support.

- Quick and convenient to install, fixed pedestals can only be used on flat, even substrates.
- Available in three heights: 12 mm / 15 mm / 20 mm.
- Level disc 3 mm thick for small adjustments; can be fitted underneath or on top of the pedestal.

SOPORTE FIJO.

- Ventajoso y rápido de montar, puede utilizarse sólo con un soporte plano y regular.
- Disponible en tres alturas 12 mm / 15 mm / 20 mm.
- Disco nivelador de 3 mm de grosor para pequeños ajustes, puede colocarse por encima o debajo del soporte.

ФИКСИРОВАННАЯ ОПОРА.

- Удобная и быстрая установка, только на ровную гладкую поверхность.
- Три режима высоты 12 мм / 15 мм / 20 мм.
- Диск 3 мм для выравнивания, вставляется в нижнюю или верхнюю часть прокладки.

SUPPORTO REGOLABILE ADJUSTABLE PEDESTAL

- Permette di regolare l'altezza del supporto creando pavimentazioni planari anche su sottofondi inclinati o irregolari.
- Supporti regolabili in altezza, con misure da 10 a 270 mm.
- Testa con finitura in gomma antirumore ed antiscivolamento.

VERSTELLBARE STÜTZE.

- Dient der Höheneinstellung der Stütze zur Gestaltung ebener Bodenflächen, selbst auf geneigten oder unregelmäßigen Untergründen.
- Höhenverstellbare Stützen, Abmessungen von 10 bis 270 mm.
- Kopf mit lärmschluckendem und rutschhemmendem Gummibelag.

SUPPORT RÉGLABLE.

- Permet de régler la hauteur du support et de réaliser des sols plats y compris sur fonds inclinés ou irréguliers.
- Supports à hauteur réglable, disponibles dans les tailles de 10 à 270 mm.
- Tête avec finition en caoutchouc antibruit et antidérapant.

- Allows the height of the pedestal to be adjusted to create flat pavings even on inclined or uneven substrates.
- Adjustable-heights pedestals available in different measures, from 10 up to 270 mm.
- Noise-damping, anti-slip rubber coated head.

SOPORTE REGULABLE.

- Permite regular la altura del soporte creando suelos planos incluso sobre soportes inclinados o irregulares.
- Soportes regulables en altura con medidas de 10 a 270 mm.
- Cabezal con acabado de goma antirruídos y antideslizamiento.

РЕГУЛИРУЕМАЯ ОПОРА.

- Позволяет регулировать высоту опоры, создавая ровные поверхности пола в том числе в условиях наклона неровностей.
- Регулируемые по высоте опоры бывают шесть размеров от 10 мм до 270 мм.
- Головка с резиновой отделкой для защиты от шума и скольжения.

SUPPORTO REGOLABILE AUTOLIVELLANTE CON FERMO BLOCCO TESTA SELF-LEVELLING ADJUSTABLE PEDESTAL WITH HEAD LOCK

- Permette di regolare l'altezza del supporto creando pavimentazioni planari anche su sottofondi inclinati o irregolari.
- Supporti regolabili in altezza, con misure da 10 a 270 mm.
- Testa con finitura in gomma antirumore ed antiscivolo.
- La speciale testa autolivellante compensa in automatico le pendenze fino al 2%.
- Il fermo blocco opzionale consente di rendere fissa la testa basculante e utilizzare il supporto come uno standard regolabile.

EINSTELLBARE SELBSTNIVELLIERENDE STÜTZE MIT KOPFBESTIGUNG

- Dient der Höheneinstellung der Stütze zur Gestaltung ebener Bodenflächen, selbst auf geneigten oder unregelmäßigen Untergründen.
- Höhenverstellbare Stützen, Abmessungen von 10 bis 270 mm.
- Kopf mit lärmschluckendem und rutschhemmendem Gummibelag.
- Der spezielle selbstnivellierende Kopf gleicht automatisch Neigungen bis zu 2 % aus.
- Der optionale Feststellanschlag ermöglicht es, das neigbare Kopfteil zu fixieren und die Stütze wie eine verstellbare Standard-Stütze zu verwenden.

SUPPORT AUTONIVELANT RÉGLABLE AVEC ARRÊT DU BLOCAGE DE LA TÊTE

- Permet de régler la hauteur du support et de réaliser des sols plats y compris sur fondes inclinés ou irréguliers.
- Supports à hauteur réglable, disponibles dans les tailles de 10 à 270 mm.
- Tête avec finition en caoutchouc antibruit et antidérapant.
- Tête spéciale autonivelante avec mise à niveau automatique des pentes jusqu'à 2%.
- L'arrêt du blocage, en option, permet de fixer la tête pivotante et d'utiliser le support comme élément de réglage.

- Allows the height of the pedestal to be adjusted to create flat pavings even on inclined or uneven substrates.
- Adjustable-heights pedestals available in different measures, from 10 up to 270 mm.
- Noise-damping, anti-slip rubber coated head.
- The special self-levelling head automatically compensates or gradients up to 2%.
- The optional lock can fix the tilting head, causing the pedestal to become a standard adjustable item.

SOPORTE AJUSTABLE AUTONIVELANTE CON CABEZAL BLOQUEABLE

- Permite regular la altura del soporte creando suelos planos incluso sobre soportes inclinados o irregulares.
- Soportes regulables en altura con medidas de 10 a 270 mm.
- Cabezal con acabado de goma antirruídos y antideslizamiento.
- El cabezal autonivelante especial compensa automáticamente pendientes de hasta un 2%.
- El accesorio de bloqueo opcional permite fijar el cabezal basculante y utilizar el soporte como estándar ajustable.

РЕГУЛИРУЕМАЯ САМОВЫРАВНИВАЮЩАЯСЯ ОПОРА С ФИКСАТОРОМ ГОЛОВКИ.

- Позволяет регулировать высоту опоры, создавая ровные поверхности пола в том числе в условиях наклона неровностей.
- Регулируемые по высоте опоры бывают шесть размеров от 10 мм до 270 мм.
- Головка с резиновой отделкой для защиты от шума и скольжения.
- Специальная самовыравнивающаяся головка автоматически компенсирует уклоны до 2%.
- Факультативный фиксатор позволяет жестко зафиксировать головку и использовать опору в качестве регулируемого ориентира.

SUPPORTI CON PROLUNGA INTEGRATA

- Rispetto ai supporti standard con fermo blocco testa:
- L'altezza è regolabile da 30 mm a 420 mm con solo 3 articoli, forniti già assemblati e provvisti di prolunga integrata.
 - La testa autolivellante compensa pendenze fino al 5%.
 - La base con sagoma speciale semplifica le installazioni perimetrali e l'aggancio alle clip di bordo.

SUPPORTS WITH INTEGRATED EXTENSION.

- With respect to standard supports with lockable head:
- The height can be adjusted from 30 mm to 420 mm with just three items, supplied fully assembled and complete with integrated extension.
 - The self-levelling head compensates for inclines of up to 5%.
 - The base with special profile simplifies perimeter installation and the fastening of edge clips.

STÜTZEN MIT INTEGRIERTER VERLÄNGERUNG.

- Unterschiede zu Standard-Stützen mit Kopfbefestigung:
- Die Höhe kann mit nur 3 Teilen von 30 mm auf 420 mm verstellt werden; bei der Auslieferung sind die integrierten Verlängerungen bereits montiert.
 - Der selbstnivellierende Kopf gleicht automatisch Neigungen von bis zu 5% aus.
 - Der speziell geformte Sockel vereinfacht die Verlegung im Umfang und die Befestigung an Randklammern.

SUPPORTS AVEC RALLONGE INTÉGRÉE.

- À la différence des supports standards avec arrêt du blocage de tête :
- La hauteur est réglable de 30 mm à 420 mm avec seulement 3 pièces fournies déjà montées et intégrant une rallonge.
 - Tête autonivelante avec mise à niveau automatique des pentes jusqu'à 5%.
 - La base avec forme spéciale simplifie l'installation en périmètre et la fixation aux clips du bord.

SOPORTES CON EXTENSIÓN INTEGRADA.

- En comparación con los soportes estándar con cabezal bloqueable:
- La altura es regulable de 30 mm a 420 mm con solo 3 elementos, suministrados ya montados y equipados con una extensión integrada.
 - El cabezal autonivelante compensa pendientes de hasta un 5%.
 - La base con forma especial simplifica las instalaciones perimetrales y el enganche a los clips de borde.

ОПОРЫ С ВСТРОЕННЫМ УДЛИНИТЕЛЕМ

- Относительно стандартных опор с фиксатором головки:
- Высота от 30 мм до 420 мм перекрывается всего 3 модификациями, поставляемыми в собранном виде с удлинителями.
 - Самовыравнивающаяся головка автоматически компенсирует уклоны до 5%.
 - Особая форма пяты облегчает установку опор по периметру и крепление краевых зажимов.

SUPPORTO REGOLABILE AUTOLIVELLANTE SELF-LEVELLING ADJUSTABLE PEDESTAL

- La speciale testa autolivellante compensa in automatico le pendenze fino al 5%.
- Supporti forniti in diverse altezze regolabili, con misure da 28 mm fino a 550 mm.
- Testa con finitura in gomma antirumore ed antiscivolo.

- The special self-levelling head automatically compensates for gradients up to 5%.
- Pedestals available in different adjustable heights, from 28 mm up to 550 mm.
- Noise-damping, anti-slip rubber coated head.

SELBSTNIVELLIERENDE STÜTZE.

- Der spezielle selbstnivellierende Kopf gleicht automatisch Neigungen bis 5% aus.
- Stützen in mehrere verstellbaren Höhen, Abmessungen von 28 mm bis 550 mm.
- Kopf mit lärmschluckendem und rutschhemmendem Gummibelag.

SUPPORT RÉGLABLE AUTO-NIVELANT.

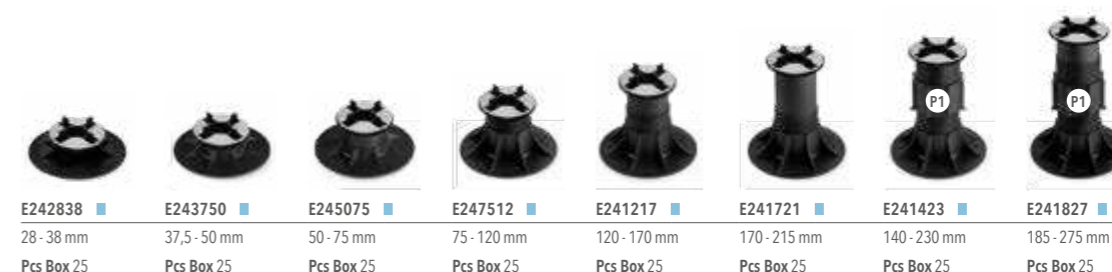

- La tête spéciale auto-nivelante compense automatiquement les dénivelés jusqu'à 5%.
- Supports fournis dans différentes hauteurs réglables: de 28 mm à 550 mm.
- Tête avec finition en caoutchouc antibruit et antidérapant.

SOPORTE REGULABLE AUTONIVELANTE.

- El cabezal especial autonivelante compensa automáticamente las pendientes de hasta el 5%.
- Soportes proporcionados en alturas diferentes regulables con medidas de 28 mm a 550 mm.
- Cabezal con acabado de goma antirruídos y antideslizamiento.

РЕГУЛИРУЕМАЯ САМОВЫРАВНИВАЮЩАЯСЯ ОПОРА.

- Специальная самовыравнивающаяся головка автоматически компенсирует разницу до 5%.
- Опоры поставляются в 15-х разных режимах высоты от 28 мм до 550 мм.
- Головка с резиново-отделкой для защиты от шума и скольжения.

POSA A SECCO SU ERBA
LAYING ON GRASS

TROCKENE VERLEGUNG AUF GRAS.
POSE SUR GAZON.
COLOCACIÓN SOBRE HIERBA.
УКЛАДКА НА ТРАВУ.

STRATIGRAFIA SUGGERITA
SUGGESTED STRATIGRAPHY

Posizionare le lastre a secco sull'erba e verificare che la distanza tra l'una e l'altra sia regolare per tutta la superficie di posa.

Place the slabs dry on the grass and check that the gap between them is the same over the entire laying surface.

Die Platten trocken auf dem Gras positionieren und prüfen, dass der Abstand von einer zur anderen Platte entlang der gesamten Verlegungsfläche gleich ist.

Poser les dalles à sec sur le gazon et s'assurer que la distance les séparant est régulière sur toute la surface de pose.

Colocar las baldosas en seco sobre la hierba y comprobar que la distancia entre sí sea regular en toda la superficie colocada.

Уложите всухую плиты на траву и убедитесь, что они расположены на равномерном друг от друга расстоянии на всей поверхности укладки.

Tracciare la porzione di terreno da asportare e realizzare uno scavo di profondità minima di 5 cm. Creare uno strato di ghiaia (diam. 3/6 mm) di almeno 3 cm.

Mark out the area of turf to be removed and dig out to a depth of at least 5 cm. Create a layer of at least 3 cm of gravel (diam. 3/6 mm).

Die zu entfernende Erdbodenportion anreissen und eine mindestens 5 cm tiefe Ausgrabung fertigen. Eine mindestens 3 cm dicke Kiesschicht (Durchm. 3/6 mm) bilden. Effectuer un tracé de la portion de terrain à retirer et creuser à une profondeur minimum de 5 cm. Réaliser une couche de gravier (diam. 3/6 mm) d'au moins 3 cm.

Marcar el área de terreno que se debe retirar y excavar un hueco de una profundidad mínima de 5 cm. Colocar una capa de grava (de 3/6 mm de diámetro) de 3 cm como mínimo.

Разметьте участок, на котором необходимо снять верхний слой, и выкопайте грунт на глубину минимум 5 см. Уложите слой щебня (диам. 3-6 мм) толщиной не менее 3 см.

Dopo aver verificato la planarità del fondo realizzato, posizionare le lastre e battere leggermente con la mazzetta di gomma per stabilizzare la posa ed eliminare eventuali irregolarità.

After checking that the substrate created is level, put the slabs in place and tap down gently with a rubber hammer to settle them into place and eliminate any unevenness.

Die Ebenheit des gefertigten Untergrundes überprüfen, danach die Platten positionieren und leicht mit dem Gummihammer abklopfen, um die Verlegung zu stabilisieren und eventuelle Unregelmäßigkeiten auszugleichen.

Après s'être assuré de la planéité du fond réalisé, positionner les dalles et battre légèrement à l'aide d'un maillet en caoutchouc pour stabiliser la pose et pour éliminer les éventuelles irrégularités.

Una vez comprobada la planicidad del soporte realizado, colocar las baldosas y golpearlas ligeramente con la maza de goma para estabilizar la colocación y eliminar eventuales irregularidades.

Проверив ровность созданной основы, уложите плиты и слегка прибейте резиновой киянкой для стабилизации плит и устранения возможных неровностей.

POSA A SECCO SU GHIAIA LAYING ON GRAVEL

TROCKENE VERLEGUNG AUF KIES.
POSE SUR GRAVIER.
COLOCACIÓN SOBRE GRAVILLA.
УКЛАДКА НА ЩЕБЕНЬ.

Preparare sul sottofondo esistente uno strato di ghiaia (diam. 3/6 mm) di almeno 5 cm di spessore. Livellare la superficie con la staggia e verificarne la planarità.
Create a layer of at least 5 cm of gravel (diam. 3/6 mm) on the existing substrate. Level the surface with a straightedge and check the flatness.

Auf dem vorhandenen Untergrund eine mindestens 5 cm dicke Kiesschicht (Durchm. 3/6 mm) vorbereiten. Die Oberfläche mit einem Streichbrett ebenen und anschließend die Ebenheit überprüfen.
Préparer sur le fond existant une couche de gravier (diam. 3/6 mm) d'au moins 5 cm d'épaisseur. Nivelier la surface à l'aide d'une règle et en vérifier la planéité.

Preparar una capa de gravilla en el soporte existente (de 3/6 mm de diámetro) de 5 cm como mínimo de grosor. Nivelar la superficie con el regle y comprobar su planicidad.
Уложите на существующую основу слой щебня (диам. 3-6 мм) толщиной не менее 5 см. Выверните поверхность рейкой и проверьте горизонтальность.

Posizionare le lastre a secco sulla ghiaia e che la distanza tra l'una e l'altra sia regolare per tutta la superficie di posa. Battere leggermente con la mazzetta di gomma per stabilizzare la posa ed eliminare eventuali irregolarità.
Place the slabs dry on the gravel and check that the gap between them is the same over the entire laying surface. Tap down gently with a rubber hammer to settle them into place and eliminate any unevenness.

Die Platten trocken auf dem Kies positionieren und prüfen, dass der Abstand von einer zur anderen Platte entlang der gesamten Verlegungsfläche gleich ist. Die Platten mit einem Gummihammer leicht abklopfen, um die Verlegung zu stabilisieren und eventuelle Unregelmäßigkeiten auszugleichen.
Poser les dalles à sec sur le gravier et s'assurer que la distance les séparant est régulière sur toute la surface de pose. Batre légèrement à l'aide d'un maillet en caoutchouc pour stabiliser la pose et pour éliminer les éventuelles irrégularités.

Colocar las baldosas en seco sobre la gravilla y comprobar que la distancia entre sí sea regular en toda la superficie colocada. Golpear la ligeramente las baldosas con la maza de goma para estabilizar la colocación y eliminar eventuales irregularidades.
Уложите всухую плиты на щебень и убедитесь, что они расположены на равномерном друг от друга расстоянии на всей поверхности укладки. Слегка прибейте резиновой киянкой для стабилизации плит и устранения возможных неровностей.

Verificare la planarità della posa ottenuta. Aggiungere ghiaia tra le fughe per livellare la pavimentazione. E' possibile utilizzare anche ghiaia decorativa di diametro superiore rispetto a quella posata sul il sottofondo.
Check the flatness of the surface created. Add gravel in the joints to level the paving. Decorative gravel larger in diameter than the type use for the substrate can also be used in the joints.

Die Ebenheit der gefertigten Verlegung überprüfen. Kies zwischen den Fugen hinzufügen, um den Bodenbelag zu nivellieren. Dazu kann auch Dekorationskies mit einem größeren Durchmesser als der Durchmesser des für die Verlegung auf dem Untergrund verwendeten Kieses benutzt werden.
Contrôler la planéité de la pose réalisée. Ajouter du gravier dans les joints pour niveler le sol. Il est également possible d'utiliser du gravier décoratif de diamètre supérieur à celui posé sur le fond.

Comprobar la planicidad de la superficie colocada. Rellenar con gravilla las juntas para nivelar el pavimento. También es posible utilizar gravilla decorativa de mayor diámetro que la utilizada para el soporte.
Проверьте горизонтальность уложенной поверхности. Для создания однородного пола засыпьте щебень в швы между плитами. Можно использовать декоративный щебень более крупного размера по сравнению с щебнем, уложенным на основу.

POSA A SECCO SU SABBIA
LAYING ON SAND

TROCKENE VERLEGUNG AUF SAND.
POSE SUR SABLE.
COLOCACIÓN SOBRE ARENA.
УКЛАДКА НА ПЕСОК.

Preparare uno strato di sabbia di almeno 5 cm di spessore sul sottofondo esistente (massetto o superficie ghiaiosa). Livellare la superficie con la staggia e verificarne la planarità.

Prepare a layer of sand at least 5 cm thick on the existing substrate (screed or gravel). Level the surface with a straightedge and check the flatness.

Eine mindestens 5 cm dicke Sandschicht auf dem vorhandenen Untergrund (Estrich oder kieshaltiger Boden) vorbereiten. Die Oberfläche mit einem Streichbrett ebenen und anschließend die Ebenheit überprüfen.

Préparer une couche de sable d'au moins 5 cm d'épaisseur sur le fond existant (chape ou surface de gravier). Nivelier la surface à l'aide d'une règle et en vérifier la planéité.

Preparar una capa de arena de al menos 5 cm de grosor sobre el soporte existente (solera o superficie de grava). Nivelar la superficie con el regle y comprobar su planicidad.

Подготовьте слой песка толщиной не менее 5 см на существующей основе (стяжке или траве). Выровняйте поверхность рейкой и проверьте горизонтальность.

Posizionare le lastre a secco sulla sabbia e verificare che la distanza tra l'una e l'altra sia regolare per tutta la superficie di posa. Battere leggermente con la mazzetta di gomma per stabilizzare la posa.

Place the slabs dry on the sand and check that the gap between them is the same over the entire laying surface. Tap down gently with a rubber hammer to settle them into place.

Die Platten trocken auf dem Sand positionieren und prüfen, dass der Abstand von einer zur anderen Platte entlang der gesamten Verlegungsfläche gleich ist. Die Platten leicht mit dem Gummihammer abklopfen, um die Verlegung zu stabilisieren.

Poser les dalles à sec sur le sable et s'assurer que la distance les séparant est régulière sur toute la surface de pose. Battre légèrement à l'aide d'un maillet en caoutchouc pour stabiliser la pose.

Colocar las baldosas en seco sobre la arena y comprobar que la distancia entre sí sea regular en toda la superficie colocada. Golpear la ligeramente las baldosas con la maza de goma para estabilizar la colocación.

Уложите всухую плиты на песок и убедитесь, что они расположены на равномерном друг от друга расстоянии на всей поверхности укладки. Слегка прибейте резиновой киянкой для стабилизации плит.

STRATIGRAFIA SUGGERITA
SUGGESTED STRATIGRAPHY

Aggiungere sabbia tra le fughe per livellare la pavimentazione. Pulire la superficie delle lastre.

Add sand in the joints to level the paving. Clean the surface of the slabs.

Sand zwischen den Fugen hinzufügen, um den Bodenbelag zu nivellieren. Die Oberfläche der Platten reinigen.

Ajouter du sable dans les joints pour niveler le sol. Nettoyer la surface des dalles.

Rellenar con arena las juntas para nivelar el pavimento. Limpiar la superficie de las baldosas.

Для создания однородного пола засыпьте песок в швы между плитами. Очистите поверхность плит.

OUR NAME STANDS FOR TECHNICAL AND AESTHETIC EXCELLENCE.

Portiamo con orgoglio in tutto il mondo materiali che esprimono al meglio la cultura estetica, l'eccellenza stilistica e tecnica del Made in Italy.

Sul mercato internazionale, il nostro nome è sinonimo di grès porcellanato dalle altissime prestazioni tecniche ed estetiche e attraverso la trasformazione di materie prime di assoluta qualità otteniamo progetti ceramici capaci d'interpretare le molteplici esigenze di un mondo in costante evoluzione.

Around the world, we proudly promote materials that best express that Made in Italy aesthetic, style and technical excellence.

On the international market, our name is synonymous with porcelain stoneware that offers extremely high technical and aesthetic performance. We transform top quality raw materials into ceramic projects able to interpret the many requirements of a continuously evolving world.

Il prestigioso marchio d'origine Ceramics of Italy contrassegna solamente i prodotti realizzati in Italia, che rappresentano i valori appartenenti all'industria ceramica da decenni.

ITALGRANITI GROUP sostiene il codice etico di Confindustria Ceramica che, dalla **produzione 100% Made in Italy alla responsabilità sociale e ambientale, promuove una politica industriale seria e trasparente.**

Ceramics of Italy is the certified brand of origin which exclusively marks all products fully manufactured in Italy representing the decades old values system of the Italian Ceramic Industry.

We support all those values promoted by the Confindustria Ceramica code of ethics, from **100% Italian production to social and environmental responsibility.**

QUALITY SYSTEM MANAGEMENT

La **certificazione UNI ISO 9001 2015** è riconosciuta a livello internazionale e rappresenta una garanzia di eccellenza e qualità del proprio sistema di gestione. ITALGRANITI GROUP ha deciso di intraprendere spontaneamente questo importante percorso adottando un insieme di regole, responsabilità e controlli per **migliorare l'efficienza dei processi e la soddisfazione del cliente, accrescere la propria competitività e mantenere la conformità ai più alti standard qualitativi.**

UNI ISO 9001 2015 certification is internationally recognised and represents a guarantee of the excellence and quality of the management system. ITALGRANITI GROUP decided of its own accord to undertake this important process, adopting a set of rules, responsibilities and checks to **improve the efficiency of processes and customer satisfaction, to boost its competitiveness and maintain compliance with the highest quality standards.**

SAFETY SYSTEM MANAGEMENT

La salute e il benessere dei lavoratori sono interessi primari per ITALGRANITI GROUP. L'ottenimento della **certificazione UNI ISO 45001** rafforza una cultura d'impresa che vede la sicurezza non solo come a un adempimento normativo, ma come parte essenziale dei processi lavorativi. La normativa è **uno strumento necessario per generare un nuovo modello di competitività sostenibile** che possa migliorare la crescita di tutte le performance aziendali.

The health and wellbeing of employees are crucial priorities for ITALGRANITI GROUP. The attainment of **UNI ISO 45001 certification** strengthens a business culture that sees safety not simply as a question of regulatory compliance, but as an essential part of working processes. Regulation is **a necessary tool for generating a new model of sustainable competitiveness** that can improve company performance across the board.

ECO-SUSTAINABLE DEVELOPMENT.

ENVIRONMENTAL MANAGEMENT

Italgraniti Group opera in conformità alle normative ambientali previste dalla certificazione ISO 14001 e del regolamento EMAS, ottenuta da oltre 10 anni. La certificazione europea EMAS (Eco-Management and Audit Scheme) misura e controlla il ridotto impatto sull'ambiente dei siti produttivi, attraverso un sistema di gestione ambientale basato su rigorosi parametri.

ITALGRANITI GROUP CONTRIBUISCE ALL'EFFICIENZA ENERGETICA ATTRAVERSO:

- 100% di riciclaggio delle acque utilizzate
- 100% riciclo degli scarti crudi e cotti
- 100% riciclo del packaging e dei pallet
- 90% di riciclo dei rifiuti.

Italgraniti Group conforms with the environmental regulations envisaged by the ISO 14001 certification and by the EMAS certification, obtained more than 10 years ago. The European EMAS (Eco-Management and Audit Scheme) certification measures and controls the reduced environmental impact of production sites, through an environmental management system based on strict parameters.

ITALGRANITI GROUP CONTRIBUTES TOWARDS ENERGY EFFICIENCY THROUGH:

- 100% recycling of waters used
- 100% recycling of unfired and fired waste
- 100% recycling of packaging and pallets
- 90% recycling of waste.

BASSE EMISSIONI DI GAS IN ATMOSFERA
LOW ATMOSPHERIC GAS EMISSIONS

LEED COMPLIANT

LEED™ è un sistema di certificazione volontario, per la progettazione, costruzione e gestione di edifici sostenibili ad alte prestazioni; promuove un sistema di progettazione integrata che riguarda l'intero edificio. È sviluppato dall'U.S. GREEN BUILDING COUNCIL (USGBC) associazione che fornisce un approccio globale alla sostenibilità dando un riconoscimento alle performance virtuose in aree chiave della salute umana ed ambientale. Il sistema si basa sull'attribuzione di crediti per ciascuno dei requisiti caratterizzanti la sostenibilità dell'edificio. Dalla somma dei crediti deriva il livello di certificazione ottenuto.

LEED™ is a voluntary certification system, for the design, construction and management of high performance sustainable buildings; it promotes an integrated design system that concerns the whole building. It is developed by the U.S. GREEN BUILDING COUNCIL (USGBC), an association which provides a global approach to sustainability, providing recognition for virtuous performance levels in key areas of human and environmental health. The system is based on rating credits for each of the requisites featuring the sustainability of the building. The sum of the credits composes the certification level achieved.

ECO-SUSTAINABLE DEVELOPMENT.

Italgraniti Group è membro del Green Building Council Italia, organizzazione che promuove la cultura e la pratica dell'edilizia sostenibile in un contesto che rispetti le esigenze dell'uomo, della collettività e dell'ambiente.

Italgraniti Group is a member of the Green Building Council Italia, an organisation that promotes the culture and practice of sustainable construction in a context that respects the needs of mankind, the collective whole and the environment.

Tutti i prodotti Italgraniti Group contengono un'elevata percentuale di materie prime riciclate. Questa importante caratteristica contribuisce all'ottenimento di crediti LEED® e WELL™.

All Italgraniti Group products contain a large percentage of recycled raw materials. This significant characteristic contributes towards obtaining LEED® and WELL™ credits.

EPD (Environmental Product Declaration), è una certificazione volontaria che mette in evidenza le prestazioni ambientali di prodotto/processo/ servizio per migliorarne la sostenibilità. Attraverso la dichiarazione EPD, Italgraniti Group comunica a partner, operatori e consumatori, l'efficacia delle politiche di sostenibilità intraprese e i dati sull'intero ciclo di vita dei propri materiali. I prodotti certificati EPD sono richiesti dai principali sistemi di certificazione internazionali (LEED®, WELL™, BREEAM®, HQE®, DGNB®, ESTIDAMA etc.) e sono premiati nel quadro normativo nazionale relativo agli appalti pubblici.

EPD (Environmental Product Declaration) is a voluntary certification which highlights the environmental performance levels of a product/process/service to improve its sustainability. Through its EPD declaration, Italgraniti Group notifies its partners, operators and consumers of the efficiency of the sustainability policies undertaken and the data concerning the entire life cycle of its materials. EPD certified products are required by the main international certification systems (LEED®, WELL™, BREEAM®, HQE®, DGNB®, ESTIDAMA etc.) and they are rewarding as part of national regulations for public tenders.

Italgraniti Group ha adottato lo standard collaborativo HPD Dichiarazioni di Salubrità di Prodotto (Health Product Declarations), per comunicare in modo trasparente il contenuto dei propri materiali e il relativo impatto sulla salute. Grazie all'HPD, i nostri prodotti contribuiscono all'ottenimento di crediti LEED® e WELL™.

Italgraniti Group has adopted the HPD (Health Product Declarations) collaborative standard to communicate the contents of its materials and the related impact on health in a transparent manner. Thanks to HPD, our products contribute towards obtaining LEED® and WELL™ credits.

BREEAM®

BREEAM® (Building Research Establishment Environmental Assessment Method), sviluppato nel 1990 dal BRE Global, è uno dei principali sistemi al mondo utilizzato per misurare le prestazioni ambientali e di sostenibilità degli edifici nuovi ed esistenti. La valutazione BREEAM® utilizza una gamma di indicatori e criteri di sostenibilità per valutare le prestazioni dell'edificio coprendo diverse tematiche ambientali: energia e risorse idriche, salute e benessere, inquinamento, trasporti, materiali, rifiuti, ecologia e processi di gestione.

Tutte le collezioni Italgraniti contribuiscono al raggiungimento dei crediti BREEAM®.

BREEAM® (Building Research Establishment Environmental Assessment Method), which was developed in 1990 by BRE Global, is one of the main systems in the world used to measure the environmental and sustainability performance of new and existing buildings.

The BREEAM® assessment uses a range of indicators and sustainability criteria to assess the performance levels of a building, covering several environmental topics: energy and water resources, health and wellbeing, pollution, transport, materials, waste, environmental awareness and management processes.

All Italgraniti collections contribute towards obtaining BREEAM® credits.

WELL™

WELL™ Building Standard (WELL™) è il primo sistema di rating per l'edilizia sostenibile che consente di misurare, certificare e monitorare le caratteristiche dell'edificio che hanno un impatto sulla salute e sul benessere degli occupanti. Il WELL™ fornisce un percorso per integrare e misurare i temi della salute umana e del benessere nella progettazione, costruzione e gestione di edifici. Per ottenere la certificazione WELL™ Building Standard™, l'edificio deve essere sottoposto a un processo che comprende una valutazione in loco e una verifica delle prestazioni da parte di un certificatore abilitato.

Tutte le collezioni Italgraniti contribuiscono al raggiungimento dei crediti WELL™.

WELL™ Building Standard (WELL™) is the number one rating system for sustainable construction designed to measure, certify and monitor the features of the building, which have an impact on the health and wellbeing of its occupants. WELL™ provides a path to integrate and measure topics of human health and wellbeing in the design, construction and management of buildings. To obtain the WELL™ Building Standard™ certification, the building must undergo a process which includes an on-site assessment and an inspection of performance levels by a qualified certifier.

All Italgraniti collections contribute towards obtaining WELL™ credits.

CAM ISO 14021

Nell'aprile 2016 il Ministero dell'Ambiente italiano ha introdotto una serie di criteri ambientali per l'edilizia, chiamati CAM Edilizia - Criteri Ambientali Minimi per l'Edilizia -, volti a facilitare l'inserimento di requisiti di eco-sostenibilità nelle gare d'appalto per interventi pubblici. L'obiettivo è quello di stimolare acquisti che minimizzino l'uso di risorse naturali e il consumo di energia, che contribuiscano inoltre alla diffusione di fonti rinnovabili, riducano la produzione di rifiuti, le emissioni inquinanti nell'aria, nell'acqua e nel suolo ed che eliminino le sostanze ambientalmente pericolose.

Grazie ad un sistema di gestione ambientale sostenibile, alla certificazione EPD e in accordo con lo standard internazionale ISO 14021, Italgraniti contribuisce ad un'edilizia di qualità e prestazioni al di sopra della media di settore.

In April 2016 the Italian Environment Ministry introduced a series of environmental criteria for construction, called CAM Edilizia - Minimum Environmental Criteria for Construction -, aimed at facilitating the insertion of eco-sustainability requirements in calls for tender of public works. The aim is to stimulate purchases that minimise the use of natural resources and energy consumption levels, which also contribute towards the spread of renewable sources, reducing waste production, polluting emissions into the air, water and soil, and which eradicate environmentally hazardous substances.

Thanks to a sustainable environmental management system, to the EPD certification and in accordance with international standard ISO 14021, Italgraniti contributes towards quality construction with performance levels above the industry average.

Ongreening.com fornisce informazioni dettagliate sulla conformità e il contributo dei prodotti Italgraniti Group ai principali sistemi di certificazione della sostenibilità degli edifici (LEED®, BREEAM®, WELL™ ed altri).

Ongreening.com provides detailed information about the conformity and contribution of Italgraniti Group products to the main building sustainability certification systems (LEED®, BREEAM®, WELL™ and others).
